

# grp shop fronts

glass reinforced plastic

a revolutionary way to enhance your business -

## why choose grp?

- grp has superior strength and durability.
- it can be moulded into complex shapes.
- visual aesthetics of a traditional wooden shop front.
- wide range of colours available.
- matching pillars add a classy architectural feature around your premises.
- we have been manufacturing these for over 15 years, and they look as good today as when first installed.

Hills Pharmacy - Tandragee

## the issue of colour

- colour is impregnated into gel coat finish. gel coat is tougher than paint and lasts longer and has a smooth easy clean finish. available in any ral colour of your choice.

## can i change the colour in future?

- yes grp can be sprayed with a specialist paint system.

Dolphin Chip Shop - Dungannon

## illumination

- signs can be supplied face illuminated with a built in trough lighting system consisting of either fluorescent tubes or leds. 3d letters can also be either face or halo illuminated using leds. see our info on 3D letters.

Margaret Forbes - Lisburn

## can shutter box be enclosed?

☛ signs are made to cover unsightly shutter boxes with access from below for maintenance. pillars are designed to cover the greasy shutter rails with the key switch mounted on side.

Dolphin II - Armagh

## the inner works

☛ the main structure of the sign fascia conceals unsightly shutter boxes. pillars hide greasy shutter rails. tig welded aluminium support brackets create a space frame to which fibre glass structure is attached as opposed to steel brackets that rust or wooden frame which rots. signs are sealed to wall by tracking and installing lead. all electrical equipment is installed into sign, ready for your approved electrician to connect to mains power.

The Jeweller Tandragee

- grp shop fascia with v carved pvc letters gilded with 22 1/4 carat gold leaf

T.G. Hawthorne - Armagh

## design & installation

☛ on confirmation of order we supply a scaled proof drawing showing how the finished signage will look including graphics, type face and colours. installation is quick as signage has been manufactured before arrival on site so there is minimum disruption and no messy painting required.
