

projecting signs ultra modern

what is a projecting sign

 a projecting sign is a sign that projects away from the wall at a 90 degree angle. it allows potential customers to see the business as they approach it from either direction whether on foot or in a vehicle.

Fixafone Mobile Phone Outlet - Portadown

Pebbles Boutique - Portadown

ultra modern

 our ultra modern projecting signs are made with robust internal steel frames. the aluminium surround can be either acrylic with a printed face or aluminium face with cut out letters for internal illumination. lighting can be provided by fluorescent tube or by energy efficient LEDs with their lower running costs.

McQuillans Menswear - Portadown

shape it

 no longer are you tied to a basic square canvas on which to present your branding. we can manufacture projecting signs in various shapes and sizes. ovals and simple rounded corners modernise the overall look.

option 1

- ☛ folded panel with vinyl graphics illuminated externally by a trough light.

Golden Dragon - Dungannon

option 2

- ☛ acrylic sign face with aluminium frame. the entire sign face is illuminated as the acrylic face is translucent.

Ella's Cafe

option 3

- ☛ aluminium sign face with cut out letters backed up with translucent acrylic. light escapes through the coloured, translucent acrylic resulting in the letters lighting up.

option 4

- ☛ aluminium sign face with inserted pop through letters for a halo effect.
